-Ping G425 Club Cover

Congratulations to all players whose name appears in bold. You win \$10.00. Weekly prizes are accumulated and awarded at the year end tournament.

Scorecard accuracy is vital to ensure you are not disqualified (DQ'd).

This week the biggest issue with the scorecards is missing information, especially from the scorer/attester. We could have DQ'd many scorecards this week, however we chose to encourage everyone to **review the 'Scoring Instructions' on the following two pages.**

Starting next week, scorecards that are incomplete or if we can't read them, will result in disqualification.

Coloniale has generously given us **NASA Tour Customer Appreciation coupons** to share with our members.

Two coupons per member will be available to pick up at registration starting at the Links on May 23rd, and each week going forward.

Your playing partner does not have to be a NASA member to redeem a coupon, however like us, 50 years of age and over.

Scoring

1. At the conclusion of the 18 holes each player must provide a score card, *see example*
 - a. displaying the hole-by-hole scores,
 - b. the player's NASA number, printed name and signature under the player printed name, and
 - c. the scorer's NASA number, printed name and signature under the scorer's name, and
 - d. date of tournament.**If score card is not fully completed, the player will be disqualified (DQ) from the tournament.**
2. Score cards must be exchanged within the group with each player having a different scorer from within the group.
3. If you choose not to finish for whatever reason, **YOU ARE STILL REQUIRED** to turn in your score card. Please mark DNF on the score card.
4. A single score card correctly filled out for each player should go into the box provided in the clubhouse.
5. All players must submit a minimum of five valid score cards prior to the Year End Tournament to maintain your membership on the Tour roster.

Tips for Completing your Score Card

You should have one objective when filling in your NASA Score Card – Make it easy as possible for the person who enters the information into the NASA Scoring System. Why? If you make it tough to find the information or read the numbers, your scorecard will be disqualified (DQ).

- **Printed NASA Number and Name**

This information should be in the space made available on the host course score card. You want your NASA number and name to be found quickly.

- **Readable Hole Scores**

Print in a legible script the number of strokes for each hole. No other scores or information should be on the submitted score card. Transpose strokes to a new card if the playing card is cluttered with unnecessary marks, circles, boxes, smiling faces or other information. Remember if it is deemed that the number is unreadable your scorecard will be disqualified.

- **Player Must Sign**

The Player must sign their name (not printed) below their NASA number and printed name. Ignore the printed Player, Attested and Scorer areas on the score card.

Good Golf and Good Fellowship

LADIES

May 15th, 2023 Coloniale

- Scorer Must Sign**

The Scorer must sign their name (not printed) below their NASA number and printed name. Ignore the printed Player, Attested and Scorer areas on the score card.

The NASA Golf Tour does not want to disqualify your score card but will do so if it has missing information, is hard to read or cluttered. If unsure, then transpose the required information onto a new score card written in a correct and readable manner.
